

NEW COAL MINE NOW AT SCHULTER

Friscio Prepares to Take a
Large Amount of the
Product

TWO MORE IMMINENT

Company Plans to Make Min-
ing Village A Model In-
dustrial Community

Special to The World.
OKMULGEE, April 20.—A new mine was opened up in the Schuler industrial district, six miles south of Okmulgee, on Tuesday when the B. & A. Mining company of Okmulgee struck a 42-inch vein of coal at a depth of 111 feet in its new shaft just west of the Schuler townsite. The vein is one of the largest yet found in the Okmulgee county coal field. A new track more than a mile long being laid by the Frisco railroad to the new mine will be completed about May 1 and electricity operated machinery will be installed in the mine. The company expects to have an output of several hundred tons per day by fall. At least two other new mines are to be opened up near Schuler where several mines are now in operation and the mining companies interested there are planning on making the village a model industrial community. A community hall is to be built and aid is to be given the miners in securing their own homes in the community. The Sun coal company, which has a mine east of Schuler, has recently installed a new tippie and new trackage and largely increased its output. The new development about Schuler is part of a development program started several months ago when officials of the Frisco railroad announced that they had selected the Okmulgee county coal field as the principal base of coal supply for the Frisco.

BOY BANDIT SCORES A HIT

Little Girl Playmate Is Victim of
His Realistic Play.

Special to The World.
PERRY, April 21.—While at play near the farm home of J. W. Reed, Delane Dorrough, seven-year-old son of Dr. John L. Dorrough, accidentally shot and painfully wounded a little girl playmate, Wanda Reed. Dr. Dorrough and his son were visiting the Reeds. After dinner the children were playing about the car. Young Dorrough took his father's 22 target rifle out of the car and played bandit awhile, with the unloaded gun. But that wasn't real enough to suit him so he slipped a cartridge in it and snapped the gun at the little girl. The shot entered her right arm, but fortunately proved to be only a flesh wound. Dr. Dorrough dressed the injury at once, and nothing serious is anticipated. But the boy says he doesn't even want to see any more bandits in the picture shows, much less play at one.

CUPID OVERRULED OBSTACLE

Required Parental Consent but No
Parent Was forthcoming.

Special to The World.
NEWKIRK, April 21.—Cupid was called upon to solve an unusual knotty problem yesterday when Allen Smart, aged 29, of Blackwell, applied for a license to marry Irene Gardner, aged 18. Smart was accompanied by A. L. Gardner, his prospective father-in-law, who gave his consent to his daughter marrying. It developed, however, that Smart himself could not wed without somebody's consent. Both his parents are dead and he had no guardian. He finally solved the problem by having County Attorney Edward Wilson file an application with the county court, asking that Gardner be named guardian for Smart. This was carried out. Gardner accepted the guardianship and then gave his consent for his ward to marry his daughter, and they went back to Blackwell, where the ceremony occurred last night.

NOT OUR MOVIE BILL HART

Man of That Name Leads Member-
ship Drive for Chamber.

Special to The World.
BARTLESVILLE, April 21.—The Bartlesville chamber of commerce will start a drive for new members next Friday under the direction of "Bill" Hart, field director of the American Cities bureau. Many of the leading business men of the city have been enlisted as members of the teams to increase the enrollment and the city has been divided into sections which are assigned to the different teams. H. Fortner, Bain director of the bureau of mines at Washington, D. C., will be in Bartlesville next week for the purpose of inspecting the local petroleum testing station and an effort will be made by the chamber of commerce to have Mr. Bain deliver an address before that body while he is in the city.

STOMACH SUFFERERS

SHOULD TRY DOCTOR'S
PRESCRIPTION

A new remedy, made from bitter extracts of fruit and vegetable origin, but tastes and stimulates the intestinal tract. Now on the market under the name—DIGESTOIDS.
R. L. Hope, druggist of Centralia, Mo., says: "Digestoids never fail to benefit and cure many so-called indigestible cases of indigestion."
Get a package of DIGESTOIDS to-day, on a Money Back Guarantee, at your druggist—50 cents.

Indians Encouraged in Farming by Inducements Offered by Fall Fairs

Special to The World.
PONCA CITY, April 21.—The Indians of the various tribes in this section of the state will plant more crops this spring than usual because of the Indian agricultural and livestock fair to be held here during the week of September 12. Four tribes have thus far announced their intention to participate—Otoes, Poncas, Tonkawas and Kawas. Their exhibit will be kept entirely separate from any exhibit by white farmers and there will be no competition between the races whatever. The week will end with an old fashioned pow-wow. The Kaw Indians in particular are accustomed to planting for fair prizes, as they have exhibited annually for several years in district fairs at Kaw City against the whites.

DID MOTHER LOOK AT TEETH?

Public Health Nurse Wakes Up
Parents.

Special to The World.
BARTLESVILLE, April 21.—Miss Martha Carter, public health nurse, is conducting a thorough health inspection of the school children in Bartlesville and Washington county. Most of the city schools have been visited, while, in company with Miss Iva Burch, county demonstrator, a thorough inspection is being conducted among the rural schools of the county. "I have asked a large number of school children, 'Does your mother ever look at your teeth?'" Miss Carter said Wednesday. "It is surprising the number who reply that their mother has never looked at their teeth. I always tell them to tell their mother to look at their teeth." Miss Carter concluded. "There is no use in having so many epidemics in the schools," she said. "Epidemics can be prevented if the parents will look into the physical defects of their children. The weakened condition of the children only makes them more susceptible to disease germs when they are prevalent in the schools."

Oil Boom Halts Court.

Special to The World.
ADA, April 21.—On account of the great oil boom here, the county court was forced to recess Monday on account of the absence of lawyers. It is said that the lawyers were so deeply interested in the oil business that court had been forgotten. However, enough appeared on the scene Tuesday to continue the session.

"Paying the Piper" a Screen Achievement at the Majestic

The fourth and perhaps greatest George Fitzmaurice Paramount picture, "Paying the Piper," by Ouida Bergere, will be the attraction at the Majestic theater, commencing Sunday. This possesses the same meritorious points that have placed the Fitzmaurice productions of "On With the Dance," "The Right to Love" and "Idols of Clay" among the best pictures recently produced. The theme of the picture is based on the thought that in the mad

TULSA Street Improvement Tax Bills

Are the most reliable investment you can obtain
on the market. They are

Free of Federal Income Tax
and are exempt from all other taxes. These
Tax Bills draw seven per cent interest and are

DOGS GUARD A BOOZE SUPPLY

Evidence Blows Up and
Burns Show Girl With
Thin Hose

Special to The World.
PERRY, April 20.—A savage dog is pretty good protection for anyone or anything, especially when the dog house sets right over the door. But Sheriff Bill Ricker and Under-sheriff Emmet Dolansey set dog and dog house aside, and uncovered a barrel of booze in the yard of Fletcher Bryant. The way the stuff blows up sometimes it seems that this underground storage tank is a good one to follow. At another place the day before, the boys from the sheriff's office included themselves upon a gay and happy little party of town boys and show girls. The day was cold and the merry throng was cuddled around a stove. Fumes from the stove aroused the curiosity of Deputy Foster. A jug of steaming alcoholic brew was found nestling on the coals. The jug held together long enough to be extracted from the fire, but it was so shocked at being found burning from within and without that it suddenly gave way with a bang, when set on the silk floor. A young lady with thin hose standing nearest the explosion was considerably shocked and stung by the double-hot shower of the "evidence."

ALL SET FOR TOURING PARTY Road Boosters on Way to Tulsa to Be Well Entertained.

Special to The World.
PERRY, April 21.—The Albert Pike highway is in good shape for the touring party from Colorado. Special efforts have been made in each direction from Perry to Stillwater and Enid, in spite of the lack of funds to carry on road maintenance within Noble county. Perry is all set for a brief entertainment and welcome to the party from Colorado Springs which includes Gov. Oliver Jackson, secretary of the chamber of commerce, and others. The party is growing along the way. A number of Perry road boosters will accompany the party and pilot them on into Tulsa. The delegates from the Perry chamber of commerce are Mayor-elect A. B. Johnson, chairman of the road committee; W. E. Merry, postmaster; Jack E. Stone, merchant and B. T. Woodruff, merchant.

ACCUSED OF FORGERY

Criminal Cases Are Heard Before
Federal Commissioner at
Holdenville.

Special to The World.
OKEMAH, April 21.—Deputy United States Marshal Keys of McAlester last Friday arrested Lumsey Harjo, full blood Creek Indian, and brought him to jail here. Harjo lives near Cassie and the charge against him is forgery. It is claimed that Harjo forged the name of Benjie Simmons, another Creek Indian, to a government check. The government officers detected the forgery before the money was paid over and caused the arrest of Harjo. He was taken to Holdenville Saturday together with four men from the county who will have a hearing before the United States commissioner at Holdenville, John Kilgore, the negro who was acquitted by a jury in the county court here, is one of the men taken before the commissioner.

It was the decision in Kilgore's case that caused County Attorney Tom Huser and Sheriff L. M. Corlier to ask that all criminal cases set for hearing at the present term of the county court be continued for the term, and action has since been taken against all whiskey cases in the federal court.

Lindsay Beats Wapanucka.

Special to The World.
ADA, April 21.—The Lindsay high school debating team will represent this congressional district at the state high school debating contest to be held under the auspices of the university in May. This was decided when the Lindsay team defeated the Wapanucka team at the normal auditorium here this week.

POSTMASTER SELLS PAPER

Daily and Weekly Issues Flourish
Under New Management.

Special to The World.
PERRY, April 21.—The Sentinel Publishing company has been sold by W. E. Merry, postmaster, to C. P. Penfield and E. M. Willett. Mr. Merry "rescued" the paper last February when it was abandoned by its former management and kept it running without missing an issue. As soon as the affairs of the concern could be put in shape the daily was resumed, and since March 1 the new owners have had active management.

The daily and weekly are both vastly improved, and their success is being rewarded by a quick response in increased circulation. The Sentinel is one of the oldest papers in the state of Oklahoma, and will celebrate its 25th year of continuous operation this fall.

Expression Students Act.

Special to The World.
NORMAN, April 21.—"Nothing But the Truth," comedy, will be presented by students of expression at the University of Oklahoma May 19, Miss Helena Collins, director, announced recently. The play is by James Montgomery.

Friday and Saturday Values That Create Unusual Economy Opportunities ---Vandevors

Friday Begins a Two-Day Sale of

50 Exclusive New Silk Dresses \$39.50

(Mostly Peggy Paige and Jos. A. Morris Models)
That Regularly Sell for \$55 to \$75

—That is, the sale will be continued Saturday if any of these desirable dresses remain after Friday's selling. Most of these dresses are brand new, being displayed for the first time. Not any of them have been in the department more than a week.

—Think of it! Exclusive Peggy Paige and Jos. A. Morris models, not one of which could ordinarily be sold for less than \$55 and several of these identical models are being sold right now for \$75 in exclusive New York shops.

—Where is the discriminating woman who can resist this opportunity of adding a distinctive sport, afternoon or street dress to her wardrobe—at so great a saving?

Taffeta — Canton Crepe — Georgette

—Circular skirts, tunic effects, cut work, pointed basques, tier skirts, fluted ruffles, embroidery, beading, braided—practically every new style theme is displayed.

—So varied are the styles—for you know they're mostly one-of-a-kind models, that descriptions are almost impossible.

—You'll just have to see these dresses to realize what an out-of-the-ordinary sale this is. Some of the frocks are now on display in the windows.

—The most desirable spring and summer colors are in evidence—taupe; gray, procelain, sand, henna brown, navy, black, white and beautiful combinations.

Filet Nets, Special 98c

—White and ecru filet nets, in small designs and good quality. 36 to 45 inches wide.
